

## Plant Buyer; Electric, Electronics, Hydraulics, Stampings (m/f)

We are a **management consulting and executive search** company specialised in **Purchasing, Logistics and Supply Chain Management**.

Due to our extensive experience in executive Management roles in the purchasing and Supply Chain arena we have developed global contacts to companies and highly qualified candidates throughout North America, Europe and Asia.

Our contact and business relationships cover the Telecommunications, Personal Computer, Electronic Components, Heavy Machinery, Consumer/ Entertainment and Automotive Supplier industries and many more.

Our objective, to contribute to our client's success is achieved through our extensive research and selection of qualified Purchasing, Logistics and Supply Chain candidates for specialist, and Management positions. Furthermore, we provide our clients with professional procurement consulting expertise to achieve sustainable cost reduction and process improvements

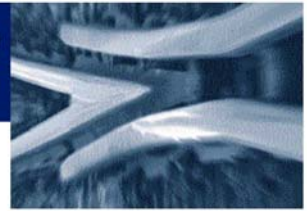

**Client** Our client is a global and leading manufacturer of commercial vehicles. The company employs approximately 100.000 people all over the world. Sales are growing rapidly – companywide with double-digit percentage. The company provides its employees with excellent career opportunities worldwide.

**Position** **Plant Buyer: Electric, Electronics, Hydraulics, Stampings (m/f)**

**Responsibilities** We are looking for a motivated self-starter to fill the position as a professional **Plant Buyer (m/f)** for our client's construction equipment business.

Your main tasks and responsibilities are

- You will be responsible for the respective material portfolios and manage product modifications and cost rationalization, and also serial production changes..
- You will collaborate with cross functional partners and you will be responsible to perform the necessary activities pertaining to price negotiations and total cost optimization in line with the respective commodity teams.
- You will support the implementation of purchasing strategies, and contribute to their ongoing improvement.
- You will manage the working relationships with suppliers for the respective site pertaining to quality, cost, deliveries and recovering warranty costs.
- You will be the first point of contact for plant operations concerning non technical issues where purchasing support is required.
- You will contribute to the achievement of purchasing goals, targets and other important KPI's
- You will report to the Purchasing Manager

## Einkauf, Logistic und Supply Chain Management - Ihre Leidenschaft

**Profile**

You have a technical or commercial degree or equivalent experience, proven experience in a purchasing environment and a minimum of 2 years work experience gained in an international manufacturing company. You are a strong communicator, an excellent team player and you have strong social skills. As our client functions in an international working environment it is essential that you are fluent in English and German.

Since material is the largest component of our clients cost, this position offers great challenges and has direct impact on the final business result and growth. It is a unique opportunity to combine technology, commercial activities and global inter-human contacts. If you are interested in the rewards and challenges offered by an industry leader, please e-mail or forward your application in German.

Please forward your application-data in German including a Curriculum Vitae, keyfacts to your position, responsibilities, successes and your certificates as MSWord- or PDF-files to **steven.waterhouse@networkpls.com**. Please be assured that we will handle your application with absolute confidentiality.
